

To Whom It May Concern:

I would like to voice my opinion as to the changing of Indiana's Telephone privacy law. It should be noted that the quality of my life has improved since this law has gone into effect. To lessen this law would be a travesty to the constituents of Indiana. Before this law was implemented my family could NOT sit down and have a peaceful supper, as for all the unsolicited Telemarketers calling. To change this law would once again prove that big money (in this case corporations) will always find a way to manipulate the system to get what they want. Please hear our request and leave our Telephone Law alone.

Thank you for listening, Paul Werry
